Work & Development experience:

05.2018 – Present   **Client Side Developer & Team Lead** at **Booking.com** (Amsterdam, The Netherlands, full-time job)

Vanilla JS development and React prototyping. Main development priorities: code quality, performance (features are exposed to ~1.000.000 unique users per day) and accessibility. Currently focused on a new product development with extra user research, ideation, fast prototyping and A/B testing for hypothesis validation. Leading autonomous cross-functional team of five people with attention to velocity, product quality, business impact and equally important professional growth and well-being of team members. A part of my time is also dedicated to mentoring and writing code with JS interns from a refugee program.

05.2015 – 04.2018   **JS Developer & JS Chapter Lead** at **Bynder** (Amsterdam, The Netherlands, full-time job)

Building new modules for SaaS enterprise portal and migration from jQuery to Backbone.js and later to React, Redux and Flow. Main development priorities: performance, security and UX. As a chapter lead responsible for hiring JS talents for Amsterdam, Rotterdam and Barcelona teams, mentoring, supporting collaboration, professional growth (code reviews, pair programming, focus on best practices, trainings and conferences). Six JS developers in direct report. Initiating and leading JavaScript, React & GraphQL meetups for Amsterdam community, choosing talks, speakers and moderating discussions after the talks.

01.2013 – 01.2015   **Lead Developer** at **BAD Paris** (Paris, France, freelance)

Web development (HTML, JS, PHP) and visual identity for three art related web projects: portfolio of film production studio, unique furniture collection (private sales) and fine art collection (private sales).

09.2012 – 01.2015   **Web Development Team Lead** at **Undev.ru** (Moscow, Russia, full-time job)

Frontend development (Haml, Sass, Angular.js) and leading projects with multiple cross-functional teams (6-10 people per team). Focus on long-term development strategy, best development practices (code reviews, pair programming, unit tests, automated integration), SEO and UX. In two years we launched more than a dozen websites & web applications (e-commerce, online TV, video wall apps).

02.2010 – 09.2010   **E-commerce Developer** at **Cookbooks.ru** (Moscow, Russia, freelance)

Building the interface and the engine of the online book store, SEO and managing email campaigns. 30% growth of organic traffic and 20% growth of online sales as a result of six month of my work.

03.2008 – 09.2012   **Senior Frontend Developer** at **"Kommersant" Publishing house** (Moscow, Russia, full-time job)

Leading a team of three frontend developers for national online media with up to 1.000.000 daily visits. Cross-browser (IE6+) and cross-platform (iPhone, Windows Phone) layouts, landing pages, interactive special projects (JS, jQuery) and web-animation (i.e. "Ballot stuffing" Flash game with ActionScript).

01.2006 – 02.2008   **Web Developer** at **Russian Public Opinion Research Center (WCIOM)** (Moscow, Russia, full-time job)

Website development with HTML, CSS, JS, PHP, MySQL, creation & analysis of a few online surveys.

Education:

09.2003 – 06.2008   Master of Sociology at Mendeleev University of Chemical Technology of Russia (Moscow, Russia)

Publications, Events, Certificates:

04.2017 – 04.2018   Bynder JS Guild, a serie of meetups and workshops for JS developers in the Netherlands (Organizer)

Publication 03.2017   Evolution of UX at Bynder Tech Blog (in English)

Certificate 04.2014   Google Analytics Platform Principles by Google Analytics Academy (Score: 100%)

Certificate 04.2014   Digital Analytics Fundamentals by Google Analytics Academy (Score: 100%)

Publication 10.2007   The spread of HIV in Russia: realization and decisions at "Monitoring" journal by WCIOM (in Russian)
